

Housewares Catalogue

Tama is a kibbutz owned company, based in Israel and specializing in plastics for agriculture and for the home.

Tama Home's range of products include kitchenware, food containers, storage boxes, jugs, trays and dustbins with new products and technologies being developed all of the time.

The products combine fun and modern colors and are safe for the dishwasher and for use in the Microwave. All products are BPA free.

Tama Home's products can be found in shops and stores in over 40 countries across the globe from South Africa to South America.

IML In Mold Labelling

IML technology allows us the opportunity of offering new and exciting products on the basis of existing molds. These products can be offered as fast selling consumer goods or alternatively as promotional products and give-aways.

Tama Home has introduced a range of **IML** products and is continuing to develop new products all the time.

Tama is able to design a unique label and color that does not appear in the catalog, according to the customer and together with the customer.

Microwave Tableware

Now we're cooking!

Quickly cook in the microwave, beautifully serve, while easily storing in your fridge - all in one. While cooking and heating in the microwave, the dishes maintain the nutritional values of the food.
